

HEAL  **WA**
Health Evidence Resource for Washington State

Annual Report

2013-2014

Overview

HEALWA, the Health Evidence Resource for Washington State, is pleased to continue providing evidence-based health information to eligible licensed health care providers across Washington State. The program is completing its sixth year of operation. As the only evidence-based, statewide health information portal in the country, this unique and forward-thinking program continues to attract attention and interest from around the country.

HEALWA resources are available at any time, from any computer with internet access, to registered users at healwa.org. **HEALWA** is now providing accredited Continuing Education modules for Registered Nurses and some other professionals, which continue to be incentives to encourage eligible licensed health care providers to activate their access.

Access

Access to HEALWA resources is available at healwa.org.

Highlights for 2013-2014

Six new professions joined HEALWA, and a new Assistant Director joined the staff, and HEALWA embarked on an evaluation study.

The six new professions that joined HEALWA in February 2014 include: **Dietitians, Licensed Practical Nurses, Nutritionists, Occupational Therapists, Occupational Therapy Assistants, and Speech-Language Pathologists**. The program licensed new resources targeted toward their practice, namely Rehabilitation Reference Center and CINAHL Complete with Fulltext.

HEALWA, in cooperation with a consultant, undertook a planning process to evaluate the program in 2015. Tania Bardyn, PI engaged Moss Adams to consult on the formal evaluation study. The purpose of the study is to understand the value of HEALWA, evidence-based information services and to determine whether HEALWA aids in clinical decision-making and impacts the care of patients.

The University of Washington launched a national recruitment for an Assistant Director for HEALWA, following Valerie Lawrence's departure in March 2014.

Gail Kouame, MLIS
Assistant Director for HEALWA

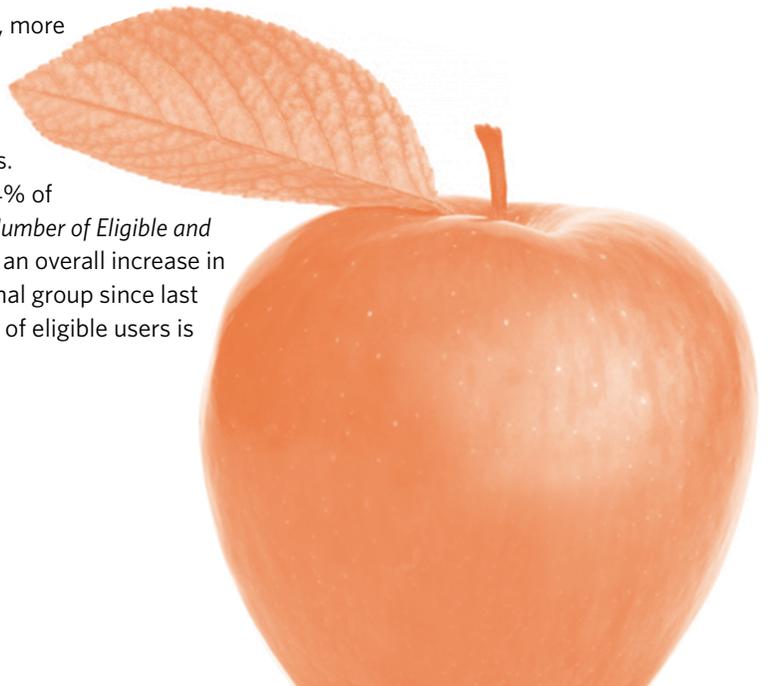

Gail Kouame, MLIS joined the staff as Assistant Director for HEALWA on August 18, 2014. Previously, Ms. Kouame was the Consumer Health Coordinator and Public Health Coordinator for the National Network of Libraries of Medicine, Pacific Northwest Region (NN/LM PNR) in Seattle, WA. She brings 15 years of experience as a medical librarian to HEALWA, including skills of teaching and training, reviewing and overseeing health outreach projects, and promoting National Library of Medicine resources to diverse audiences.

Participation

As of December 16, 2014, more than 23,500 licensed healthcare providers in Washington are registered HEALWA users.

This represents almost 14% of total eligible users (see: *Number of Eligible and Registered licensees, page 4*).

There has been an overall increase in usage among almost every health professional group since last year. The group with the highest percentage of eligible users is Naturopathic Physicians.
