

HEALWA

Evidence-based Health Information
for Washington State Healthcare Providers

ANNUAL REPORT 2023

GREETINGS!

HEALWA IS PROUD TO PRESENT THE 2023 ANNUAL REPORT TO STAKEHOLDERS.

Washington is home to a diverse economy with a broad range of industries, including health care. Based on recent labor market analysis, it is estimated that employers will add 373,000 net new jobs in Washington state over the next five years. Most of these jobs — an estimated 70% — will require workers with a post-high school credential, such as a degree, apprenticeship, or certificate. HEALWA, the clinical library for Washington healthcare providers, serves 26 credentialed and licensed health professions including all acupuncturists, chiropractors, midwives, registered nurses, physician assistants, occupational therapists, speech language pathologists, and many more.

Next year, HEALWA will focus on access via a website redesign, health equity, and workforce development. HEALWA is renewing and energizing outreach efforts via strategic community partnerships with the University of Washington Government Relations Office of Spokane & Eastern Washington Relations. We must lead healthcare in Washington with safety and engagement and provide access to high quality clinical health information resources to improve patient outcomes and community health in Washington.

Sincerely,

Tania Bardyn, MLIS
Principal Investigator
Senior Director, HEALWA & Community
Partnerships

Vision

To be the provider of choice of current, authoritative clinical and educational information resources to every licensed healthcare provider in Washington State.

Mission

HEALWA assures 24/7 online access to current authoritative clinical information and educational resources to eligible healthcare practitioners in Washington State. We do this in partnership with the Washington State Department of Health.

 Facebook (<https://www.facebook.com/HEALWA/>)

 Twitter/X (<https://twitter.com/healwa>)

2024 HEALWA Focus Areas

Access: Ensure that the HEALWA website is inclusively designed and accessible to eligible healthcare providers in Washington.

- Work with our local team to identify areas for improving the HEALWA website
- Post relevant social media content and highlight articles of current interest
- Redesign the HEALWA website to facilitate increasing knowledge about clinical information resources
- Provide podcasts and educational opportunities via HEALWA

Health Equity: Commit to Acting for Health Equity.

- Join Rise to Health Equity coalition
- Engage HEALWA in educational and professional development opportunities that equip HEALWA healthcare professionals to advance health literacy and health equity

Workforce Development: Help build a health care workforce equipped to use library and information seeking skills to deliver high quality and safe care in Washington.

- Exhibit at professional conferences and community events
- Partner with Washington universities and community colleges to develop an outreach program for graduating nursing and medical students to sign up and register for HEALWA
